Mirka Abrasives

Mirka Abrasives offers a wide range of sanding materials ranging from automotive through heavy industrial applications.

Mirka papers are professional grade products used in production plants worldwide, with an excellent reputation for value and performance.

Wood Essence has selected TWO of Mirka's extensive offerings, specific to Woodworkers and Wood Finishers. These are quality abrasives, not some "mystery house brand"....

Mirka ROYAL & MICRO

- The preferred Choice for Wood Finishers
- Superior load resistance
- Safe For Waterborne and Solvent finishes
- Recommended by Target Coatings
- Long Wear
- More consistently graded grain to minimize stray scratches in finishes
- Best for final wood preparation, between coat sanding and level sanding or rubbing out finishes.
- Versatile to use for wood preparation

Other styles and grit combinations are available, including 3" dia discs & PSA discs.

We will Mix and Match different grits in any style to produce a box or sleeve. So you can order 1 box of 50 of the Gold 5" x 8 Hole that includes 10 each of 120, 150, 180, 220 & 320 grits at the \$16.25 price.

Spring 2008 Special, Until April 30th: Order 5 full boxes or more and receive a 10% discount

Wood Essence ColorFX Liquid Dye Concentrates

These dye concentrates have been widely popular for us, because of their ease of use and wide range of applications including bare wood stain (even on hard maple), tinting lacquers and other topcoats and as toners for spray applications.

Individual bottles are available, but we have also pre-packaged common colors into kits at discounted pricing.

The kits are the best way to begin working with dyes and you can re-order the single bottles you require after testing your project or when you run out.

ColorFX 12 color x 15ml Trial Set. Each 15ml bottle will produce 1/2 litre of standard strength stain. Price for the kit is \$46.00 and includes the following colors along with nitrile gloves and mixing instructions:

- Burnt Umber
- Burnt Sienna
- Raw Sienna
- Raw Umber
- Van Dyke Brown
- Amber
- Yellow G
- Yellow R
- Red
- Blue
- Green
- Black

Our 6 Color Wood Tone Kit is available in a 15ml size or a 60ml size. The 15ml bottles will each produce about 1/2 litre of standard strength stain and the 60ml bottles will each produce about 2 litres of stain.

The 6 Color Wood Tone Kit includes: Burnt Umber, Burnt Sienna, Raw Umber, Raw Sienna, Van Dyke Brown and Amber. All are standard wood tones that can be used on their own or intermixed to create your own custom shade. You mix what you need, when you need; just add dye to water or alcohol to the strength you like. The shelf life of the concentrates is many years!

Pricing for the 6 color x 15ml Kit is \$23.00

Pricing for the 6 color x 60ml Kit is \$82.00

See www.woodessence.com for color images of the ColorFX dyes on curly maple
