

**New Bench Solution™ and IdealWall™ Solution Provide
A Fold Away Work Area and Tidy Up Cluttered Walls**

*New durable, space-saving, easy-to-use workbench and wall unit are ideal
for homeowners, professionals and DIY enthusiasts*

Hiawatha, Iowa (August 27, 2008) — There's no doubt that a spacious workbench and organized tool storage area can make any task more enjoyable, but space is at a premium in most garages and homes. The new Bench Solution™ and IdealWall™ from Bench Solution Inc. provide ideal alternatives to the traditional cumbersome workbench and cluttered wall.

The Bench Solution™ provides a generous 60-inch by 24-inch work surface while maximizing available space in the home or garage. The safe, easily operated fold-down work surface is made of durable, finished hardwood. When folded down against the wall, it sits only inches away, leaving plenty of room for the car, SUV, lawnmower or boat. And unlike traditional workbenches, Bench Solution™ can be mounted at any height, so the user can be sure that the work surface is comfortable and convenient. Bench Solution is equipped with a patent-pending two-latch safety system for safe and easy fold-down, ensuring that it can never be lowered unintentionally.

IdealWall™ Solution, sold separately, is the perfect companion. It's a uniquely engineered polymer wall panel with versatile storage and organization capabilities for the garage, home or office. The dimensions align perfectly at 60-inches by 36-inches. IdealWall Solution offers the flexibility of using both pegboard hooks and accessories in combination with "L" style brackets. The uniquely engineered vertical grooves allow tools to be placed close together so no space is wasted.

"We spend a great deal of time listening to customers to determine how we might create unique, yet straightforward solutions to their needs," said Vince Welsh, president at Bench Solution™ Inc. "Homeowners want a sturdy workbench without having to sacrifice valuable floor space and options for hanging tool or items on the wall. Bench Solution addresses those needs and helps raise the standard for garage makeovers and organization in any room."

The Bench Solution™ has a suggested retail price of \$659. For more information or to find a retailer, visit www.2benchsolution.com or call (319) 330-0336.
