

Presents

The Saw Seminar

By "The Saw guy" Dave Wooland

The Table Saw

Setting up and maintaining the saw and blade. Blade selection, and some tips and tricks, do's and don'ts, followed by a project of making a covered raised panel door with just a table saw. This will show that a table saw can do more than just cut straight lines

The Band Saw

Setting up and maintaining the saw and blade. Blade selection and some tips and tricks followed by a project of making a Queen Ann leg and you will get a versatile leg pattern to take home.

The Mitre Saw

Setting up and maintaining the saw and blade. Blade selection and some tips and tricks and do's and don'ts

Limited number of seats so book early
