### 16" Woodworking Vice with Quick Release - GROZ

**Sale \$109**

**Reg - \$149**

**Sale ends January 10<sup>th</sup> 2009.**

A traditional pattern woodworking vice equipped with the quick release mechanism. Simply pressing the trigger initiates the quick action, with the front jaw sliding freely, thereby allowing large or small work pieces to be interchanged smoothly. Releasing the trigger returns the mechanism to normal for fine adjustment. A very useful feature in repetitive work situations.

The vise is equipped with an adjustable front dog which when used in conjunction with a bench stop allows oversize work pieces too large to be held between the jaws, to be securely held. This useful addition provides a normal vice and a tail vice in one tool.

Manufactured from close-grained grey cast iron, these robust vices have accurately machined housings for smooth sliding movement and true parallel action free of side or cross movement.

Vice jaws are equipped with a "TOE - IN" feature. When fully closed the jaws meet only at the top to provide even clamping on the whole depth of the work piece.

The steel main screw has Buttress threads for smooth, accurate and responsive adjustment. Body and sliding jaw have provision for attaching wooden liners to protect the vice, work piece and working tools.

Jaw Width - 10 1/2"

Jaw Opening - 16"

Net Weight - 17 kg

Item No: CW001

**The CarveWright CNC Carving Machine**

**Sale \$2,099**

**Reg - \$2,199**

**Sale ends January 10<sup>th</sup> 2009.**

The CarveWright is a compact and powerful Woodcarving Machine which measures a mere 15' 18' 26" inches. It's rising-head and feed through configuration accepts work pieces 14.5 inches wide, 5 inches high, and with proper support nearly any desired length. Though considered a woodworking machine, it is also capable of working with other soft materials like foam and suitable plastics. Using the CarveWright Woodworking System is as easy as 1-2-3.

You first design your project on the CarveWright Designer Software (included). You can choose images from an existing Library or import images into the software.

Next, you upload your Designed Project to a Memory Card that can hold several projects. There is no need to attach your computer to the Machine.

After inserting the Memory Card into the Machine a LCD Display guides you thru the rest.

The machine can be used to perform a variety of functions such as routing, cutting, carving and jointing and has a patented "Quick Change System" that allows the bits to be easily removed and replaced. The Machine will automatically choose the correct bit for your job and measure your work piece. Out of the box and ready to go, the CarveWright Woodworking System comes equipped with everything needed to get started. Included with your purchase is one Carving Bit, one Cutting bit, two 1/4" Bit Adapters, Vacuum-Bag, a Bit removal Tool, a CarveWright Memory Card with Programmer, The CarveWright Design Software, and the User's Manual.

For more information please visit [www.carverwright.com](http://www.carverwright.com)

We also sell a variety of accessories to go with this machine.

1 Year CarveWright Warranty

**Compressor 1 Gallon Trim Boss - DeWalt**

**Price \$145**

This popular compressor is lightweight and rugged and perfect for everyday use at different job sites.

.75 SCFM delivered @ 90 PSI pump, 1.0 gallon tank and 135 max PSI enables more nails to be fired and provides quicker recovery

Durable oil free pump provides extended maintenance-free operation

Low 71 dBA\* allows for quieter operation (\*Tested per ISO3744

Roll cage and control panel provide protection to key compressor components

Low 2.6 amp draw motor provides easy start-up and reduces breaker tripping

Lightweight (24 lbs), thin (9.0") and compact design is easy to carry and store

Ball valve drain allows for quick and thorough tank draining

One quick coupler to easily support 1 nailer

Convenient cord wrap for easy storage

High-flow regulator for increased performance

**Specifications**

Horsepower - 0.3 continuous HP

Drive - Belt

Tank Size - 1.0 gal

Power Supply - 120V, 60Hz, 2.6 amps., PMDC motor

CFM @ 100 PSI - .6 CFM

Pump Speed - 2,200 rpm

Tool Length - 19.0 "

Tool Width - 14.5 "

Tool Height - 9.0 "

Tool Weight - 24 lbs

Shipping Weight - 29 lbs

Item No: B2768

**31pc Ladies Tool Kit**

**Sale \$39.98**

**Reg - \$45.99**

**Sale ends January 10<sup>th</sup> 2009.**

**Low Profile Palm Sander - Porter Cable**

**Price \$119 (lowest price in Canada)**

This 5" hook & loop sander from Porter Cable features a revolutionary new low profile design which is aimed at superior user comfort and control. Already winning awards, this sander rivals most in its class.

3.5 Amp EnduraTech Motor for increased performance and durability  
Electronic Load Control for 42% faster material removal  
EnduraTech Motor Technology has 71% fewer wear components for 5-10x longer motor life  
Mechanical pad brake reduces free-spin to virtually eliminate gouging  
Low profile design reduces sander height by 31% for better control and finish  
Variable-speed, 7,000 - 12,000 OPM for optimal removal rate on a variety of materials  
Optimized ergonomics with rubber grip for comfort and control  
Integral dust port accepts 1" and 1-1/2" vacuum hoses for optimal dust collection  
Amps: 3.5 Amps  
orbits/Min: 7,000-12,000 opm  
Pad: 5", 8-hole  
Abrasive Type: Hook & Loop  
Length: 5 "  
Width: 12 "  
Height: 4 "  
Weight: 2.1 lbs  
Shipping Weight: 6.34 lbs

## Grommet Kits

**Sale Pricing from \$5.99 - \$8.99**

**Sale Pricing ends January 10<sup>th</sup> 2009**

Grommets or eyelets as they are commonly called are used to repair canvas, tarpaulins, tents, awnings, sailcloth, lawn furniture, pool covers etc.

These are offered as a kit containing:

- Solid Brass Grommets
- Hole Punch
- Backer block
- Setting Tool
- Anvil
- Multiple Grommets

Available in 3 different sizes

**Model B2769** – ¼” (extra grommets available)

**Model B2770** – 3/8” (extra grommets available)

**Model B2771** – ½”(extra grommets available)

Grommets are made from solid brass making them rust resistant. Hole punch and Setting Tool are precision machined from single bar of solid steel for additional durability.
