Milwaukee Introduces New M18 High Performance Hammer Drill

MILWAUKEE, WI – Milwaukee Electric Tool Corporation introduces the new M18 High Performance Hammer Drill that is perfect for a wide range of applications including plumbing, electrical, HVAC, MRO and remodeling work.

As the cornerstone of the new M18 cordless family, the new 2611 Hammer Drill delivers revolutionary power, run-time and ergonomics. The new Milwaukee 4-Pole Frameless Motor generates a best-in-class 650 in/lbs. of torque to meet the application rigors of the jobsite. Utilizing the new 18V XC High Capacity LITHIUM-ION battery, the 2611 delivers up to 65 percent more holes per charge. At only 9 ¼" long and 5.3 lbs, it is the most compact high performance hammer drill available, which minimizes user fatigue and maximizes productivity by fitting into tight spaces.

The 2611 incorporates an easy to use ½" single-sleeve ratcheting metal chuck with carbide jaws for maximum grip. Other features include the Battery Fuel Gauge, which displays remaining run-time and the Built-in LED Light that illuminates work surface.

Backed by Milwaukee's 5-year 2,000-charge warranty, the 2611 comes equipped with two 18V XC High Capacity LITHIUM-ION batteries, 1-hour charger and carrying case.
